BENGALURU 560034.**

**EXPERIMENT DAY**

**NURSERY – 01-08-2019 – THURSDAY.**

**JUNIOR K.G -05-08-2019 – MONDAY.**

It is said that "Science is the systematic classification of experience"-  
George Hendry Lewes.

Yes, it is true that; Education thus becomes an act of depositing, in  
which the students are the depositories and the teacher is the  
depositor.

The Experiment Day was organized in the pre-primary quadrangle  
for Nursery and Junior K.G students. Children were immensely  
happy to see the experiments like Elephant toothpaste, color  
mixing, Lava Lamp and Balloon Blew big with the chemical reaction  
of baking soda, vinegar and soap which made the students more  
curious and kept them attentive throughout the program.

Seeing our little Franciscans enthusiasm, we teachers witnessed that  
the impact of this event will raise our student's aspirations, interests,  
love and inclination towards science and its facts in future.
